**TOWN OF AMHERST**  
**First-Time Homebuyers Program**

Dear Potential Homebuyer:

The Town of Amherst, as a member of the Amherst-Cheektowaga-Tonawanda HOME Consortium, using the HOME Investment Partnerships Program, offers loans for first-time homebuyers with qualifying incomes to cover closing costs associated with the purchase of their first home in the Town of Amherst. These are **long term, deferred payment, interest-free loans**. You need not make any payments toward the loan until your home is sold, transferred in title, refinanced (home equity, mortgage, etc.) or you cease to occupy the property as your principal residence. At that time the loan would have to be repaid in full. The enclosed information outlines the income and property qualifications for potential applicants to the program. Also enclosed is a copy of the Program Guidelines and Procedure Sheet for First-Time Homebuyers Program being offered by the Town of Amherst.

Supplementary mortgage products with lower down payments are presently available through most lenders to qualified applicants who are eligible for the Town's assistance. A free consultation with a mortgage representative offers valuable information on the home buying process, mortgage availability, credit concerns and the financial assistance available through the Community Development Programs for potential purchases. **It is a requirement that you attend a First-Time Homebuyer Workshop offered for this program by Belmont Housing Resources for WNY, Inc. Please contact housing counselors at 884-7791, x. 131 for an appointment. A copy of the completion certificate must be included with your application for assistance.**

If you think you may be interested in taking advantage of the program, our Town's website contains the information and application packet at [www.amherst.ny.us](http://www.amherst.ny.us), click on "**Community Development**" on the home page and it will direct you to the program information. You may also contact the Town's Community Development staff:

### **Non-Discrimination**

Loan funds are available to persons without regard to race, religion, color, national origin, sex, age, disability, marital status, military status or familial status. (As of March 5, 2012 sexual orientation or gender identity is included as protected classes).

### **Definition of Income Eligible**

Income eligible means having a gross, annual household income of no more than 80% of the area median income as established by the federal government.

### **Definition of Household**

A household consists of all persons, related or unrelated, who will reside together within one year of said purchase of the property assisted by this program.

### **Income**

Gross Annual Household Income means the income of ALL household members age 16 and older, from ALL sources including: wages, salaries, commissions, tips, bonuses, severance pay, interest, dividends, alimony, maintenance or support payments, child support, Social Security, SSI, unemployment compensation, pensions, retirement benefits, disability payments, worker's compensation payments, annuity benefits, public assistance payments, net business income, royalties, IRA distributions, self-employment income, etc. **Taxable** as well as **nontaxable** forms of income are considered as household income for purposes of this program. Gross income means income **before** any applicable withholding taxes or deductions are subtracted.

### **Determination of Income-Eligibility**

An applicant's current gross household income will be utilized as the basis for determining income-eligibility. Income from all sources will be verified with supporting documentation. An applicant must submit all the information outlined on the First-Time Home buyers Program application and any additional information or documentation determined by the Town to be necessary to adequately determine household income. Calculation of household income must fairly and accurately represent household income pursuant to federal regulations at 24 CFR Part 5.609.

If the household income of an applicant cannot be determined, the applicant's household income will be presumed to be greater than 80% of area median income, and therefore the household will not qualify.

Verification of income eligibility will be valid for a period of up to 180 days. If more than 180 days transpire from the point of initial income verification to the point of entering into a contract to purchase a home, it will be necessary to re-verify an applicant's household income.
