### Energy Conservation Citizens Advisory Committee

The Amherst Energy Conservation Citizens Advisory Committee CONGRATULATES Mike Delamere of the Town of Amherst Engineering Department on achieving Certified Energy Manager (CEM®) with The Association of Energy Engineers (AEE®). Mr. Delamere's achievement will enable the Town of Amherst to improve energy use now and into the future.

The Certified Energy Manager program is widely accepted and respected within the United States as well as internationally. To achieve certification Mr. Delamere had to meet a board-approved list of pre-qualifications and to demonstrate knowledge and understanding via work experience, education and a passing CEM® exam score.

Our Committee is pleased the Town of Amherst supported Mr. Delamere in this significant accomplishment. Congratulations Mike!

## Professional Achieves Energy Management Certification

Atlanta, Georgia, August 11, 2010 - The Association of Energy Engineers announces that **Michael E. Delamere, C.E.M.** has met the educational, experience and rigorous testing requirements needed to qualify as a Certified Energy Manager<sup>®</sup> (CEM<sup>®</sup>) and has joined the ranks of over 8,500 CEMs worldwide.

The Association of Energy Engineers, AEE, founded in 1977 is a nonprofit professional society located in Atlanta, Georgia with over 11,000 members in 78 countries. Established in 1981, the Certified Energy Manager<sup>®</sup> (CEM<sup>®</sup>) provides a recognizable affirmation of demonstrated competencies in a wide range of energy-related principles and practices. Professionals seeking the CEM<sup>®</sup> designation must meet a board-approved list of pre-qualifications of field experience, prior educational achievements, and a passing CEM exam score.

The CEM<sup>®</sup> program is widely accepted and respected both in the U.S. and internationally. The CEM<sup>®</sup> designation is recognized by the U.S. Department of Energy, the Office of Federal Energy Management Programs (FEMP), and the U.S. Agency for International Development, as well as by numerous state energy offices, major utilities, corporations and energy service companies. CEM<sup>®</sup>s are now found engaged in all the various aspects of the energy industry, including major multi-national corporations: utilities; controls and performance contractors; federal, state, and local governments; universities; hospitals; regional school districts; local entrepreneurs, as well as consultants in the energy field.

The designation "Certified Energy Manager<sup>SM</sup>" is a registered service mark and CEM<sup>®</sup> is a registered trademark with the United States Trademark and Patent Office.
