Public Information Meeting

**Highway Lighting on US Route 62
(Niagara Falls Boulevard)
(P.I.N. 5762.37)**

Wednesday, May 09, 2018

Ellicott Creek Volunteer Fire Company
45 S. Ellicott Creek Road
Amherst, NY 14228

Meeting Room (Downstairs)

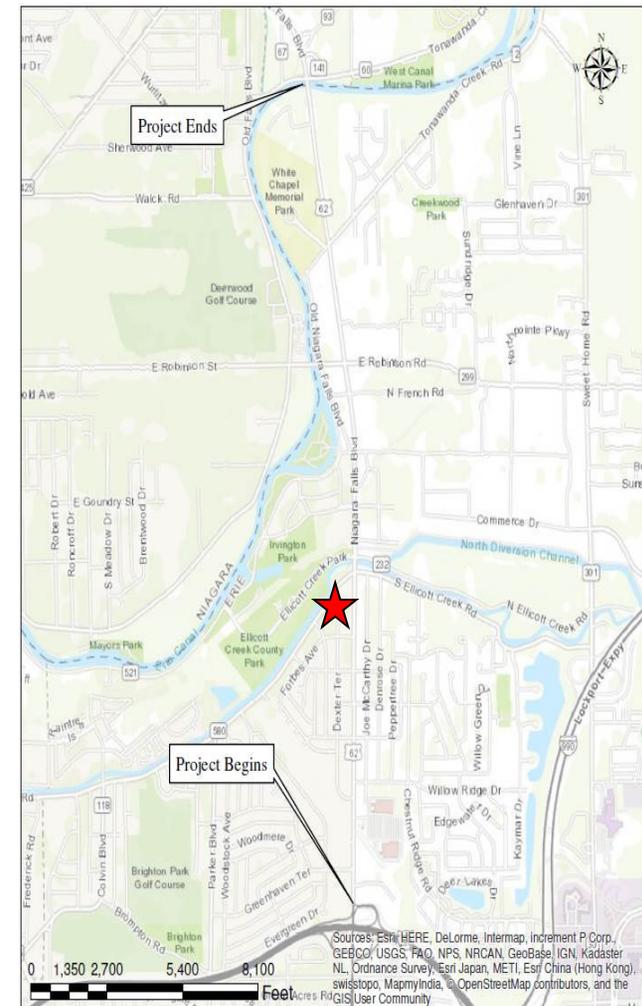

7:00 PM

**Please come join us!
Your input is important to us.**

Meeting Agenda

7:00 PM - Open House
View our presentation, view our displays, ask questions, and give us your input

Project Location Map

Project Description:

- Installation of street lighting
- Limits: I-290 to the Niagara County Line

★ Meeting Location

Ellicott Creek Volunteer Fire Company
45 S. Ellicott Creek Road
Amherst, NY 14228

Project Information

Project Background

The Highway Lighting on US Route 62 (Niagara Falls Boulevard) Project is a locally administered, federal aid project sponsored by the Town of Amherst Engineering Department and is included in the Highway Safety Improvement Program (HSIP). The Federal Highway Administration (FHWA), through the New York State Department of Transportation (NYSDOT), has made funding available to improve lighting conditions along approximately 3.3 miles of Niagara Falls Boulevard.

This project will provide for the installation of new street light foundations, poles and luminaires for the Town of Amherst section of Niagara Falls Boulevard from I-290 to the Erie/Niagara County Line. In a separate but concurrent venture, National Grid will be upgrading and/or installing luminaires (supported by davit arms mounted to utility poles) on the Town of Tonawanda side of Niagara Falls Boulevard between I-290 and Creekside Drive.

Why is this project needed?

- ☑ Reduce pedestrian and vehicular accident rates
- ☑ Facilitate improved pedestrian and roadway safety throughout the corridor

What are the objectives of the project?

- ☑ Provide consistent lighting throughout the roadway
- ☑ Improve illumination at intersections, pedestrian crossings, sidewalks, and bus stops
- ☑ Develop cost effective lighting alternatives

What are the proposed improvements?

- ☑ Installation of approximately 135 light poles, foundations, and luminaires in the Town of Amherst.
- ☑ Installation of 52 luminaires (supported by davit arms mounted to utility poles) in the Town of Tonawanda.

What alternatives are being considered?

- ☑ Alternative A: National Grid will own and maintain the wiring and luminaires and the Town of Amherst will own the conduit, poles and foundations.
- ☑ Alternative B: The Town of Amherst will own and maintain the entire system within the Town.

Our mission...

The Town of Amherst values your input. Please share with us your comments and thoughts about this project.
