

Kim Yoerg: Biographical Statement

Kim Yoerg has been teaching art in the Williamsville School District since 1990. She earned her Bachelor of Fine Arts at SUNY at Buffalo and completed her MS in Art Education at Buffalo State College. Kim has dabbled in many different art media throughout the years but always returns to painting. She enjoys using water-based paints and has worked extensively with a tempera batik method, a resist painting technique. She enjoys spending time outdoors and loves to paint landscapes. Inspired by the red rock canyons of southern Utah, many of her paintings reflect her love of the desert environment in and around the National Parks. Her hope is that her paintings will inspire everyone to appreciate, protect and strive to preserve these areas. Kim is a participant in “Paint the Parks!” Check out this worthy program at <http://www.painttheparks.com/>.
