1. Applicant obtains application from the Planning Department, 5583 Main Street, Williamsville, NY 14221, by phoning (716) 631-7051 or on-line at [www.amherst.ny.us](http://www.amherst.ny.us) (keyword: Planning).

*The application shall be executed or consented to in writing by persons having legal standing as defined in Section 8-2-2 of the Zoning Ordinance.*

2. A pre-submittal consultation with Planning Department staff is *strongly recommended* prior to submitting an application. The pre-submittal meeting gives the applicant an opportunity to discuss with staff such items as:
  - consistency of the proposed rezoning with the adopted Bicentennial Comprehensive Plan
  - determining what specific information will be required to be submitted with the application
  - identifying and discussing issues that must be addressed as part of the SEQR review.

***An appointment is required for all meetings with Planning Department staff.***

3. The rezoning petition is subject to the requirements of 6 NYCRR Part 617, State Environmental Quality Review Act (SEQR), and Chapter 104 of the Town of Amherst Code, as amended. The Environmental Assessment Form (EAF) must assess the cumulative impacts associated with the rezoning (and the Comprehensive Plan amendment, if applicable). The Town Board cannot make a SEQR determination unless a complete EAF is submitted along with the Town of Amherst EAF Addendum (attached Appendix A) and any required supplementary information, such as traffic impact studies, archaeological reports, wetland delineations or geotechnical reports. SEQR issues may be discussed with Planning Department staff at a recommended pre-submittal meeting. Unlisted Actions require a Short EAF; Type I Actions require a Full EAF. The following is a link to the NYSDEC website and fillable forms with instructions: <http://www.dec.ny.gov/permits/6191.html>.
4. Submittal of an application grants permission to Town staff and Board members to access the parcel(s) under consideration.
5. The rezoning request must be put in the form of a Local Law and submitted both as a paper copy and in electronic form as a Microsoft Word document. See Appendix D, attached.

APPLICATION PROCEDURES

1. Applicant prepares and submits one complete application with attachments to the Planning Department for review prior to filing.
2. After approval for filing by the Planning Department, the applicant files **thirteen (13)** copies of the completed application and attachments with the Planning Department and submits the required fee and one copy of the application package to the Town Clerk. (See Schedule of Fees on first page of application and make checks payable to: Town of Amherst.) Each package must be collated, with larger sheets folded into no larger than 9" x 12" size. The following information must be included in each application package:
  - A completed, signed and notarized application form with all required attachments
  - A conceptual development plan, drawn to scale (no larger than 24" X 36" in size)
  - An 8 ½" X 11" reduction of the conceptual development plan
  - Boundary survey prepared by a NYS licensed land surveyor that shows the acreage of the parcel, acreage of the area to be rezoned, zoning of adjacent properties and all other typical survey data
  - A legal description of the area proposed to be rezoned
  - The legal description in the form of a draft local law (see Appendix D) and provided **as a Word document**
  - A completed and signed Environmental Assessment Form (EAF), including any required supplementary reports such as traffic studies, geotechnical reports, archaeological surveys, or wetland delineation reports
3. The applicant returns a copy of the filing receipt to the Planning Department.
4. The Planning Department transmits copies of the application and materials for a review by:
  - Commissioner of Building
  - Town Engineer
  - Superintendent of Highways
  - Traffic / Safety Board
  - Fire Chiefs' Association
  - Town Attorney
  - Zoning Enforcement Officer
  - Other Town and outside Agencies, as applicable
5. Each agency completes its review and notifies the Planning Department in writing of its comments or recommendations as required by the Zoning Ordinance.
6. The Town makes an environmental assessment of the project to determine whether a draft Environmental Impact Statement (EIS) is required. The applicant will be advised in the event that a draft EIS is required and afforded the opportunity to prepare it. If he/she declines, the Planning Board will prepare the draft EIS at the applicant's expense. A public hearing will be held concurrently with all public hearings on the application itself.
7. The following procedures are established for submittal of revised documents: **All such documents must be provided in electronic format in addition to hard copies.**
  - A. Revised Survey / Legal Description. **Thirteen (13)** copies of any proposed revisions to the Survey or Legal Description must be approved and submitted to the Planning Department. The Planning Department will transmit one copy of the revised Survey/Legal Description to the Town Clerk and to review agencies as required. The corresponding local law must also be updated and provided. *APPENDIX "E"*, "Revised Survey / Legal Description submittal form" must accompany the revised documents.

B. Other Revised Materials. The applicant must provide **thirteen (13)** complete sets of revised plans, reports, or materials as required to address review agency comments (recommend the applicant contact Planning staff to determine if fewer sets are needed). The revised submission should include, but is not limited to, the following:

- A cover letter addressing all comments received to date.
- Revised conceptual development plan drawings with the area of change “highlighted”, along with a notation describing the change.

8. Planning Board Meeting Procedures. The applicant or representative must present the project at the public hearing before the Planning Board and be available to answer any questions at the meeting. The Planning Board may take any of the following actions:

- Adjourn the hearing to a future Planning Board meeting (hearing remains open).
- Close the public hearing and table action on the rezoning petition to the next Planning Board meeting.
- Close the public hearing and make a recommendation on the rezoning.

All determinations on matters before the Planning Board are made after all public hearings on that meeting’s agenda are completed.

The Planning Board will hold both a hearing on the proposed action and a concurrent SEQR hearing. Upon receipt of all required SEQR materials, the Planning Board will make a SEQR recommendation and a recommendation on the proposed rezoning to the Town Board per the requirements of Sections 8-1, 8-2, and 8-3 of the Zoning Ordinance.

9. After the Planning Board issues its recommendation, it is the applicant's responsibility to submit a written request to the Town Clerk that a public hearing be scheduled before the Town Board. A copy of the request should also be submitted to the Planning Department.

10. A final determination on SEQR and the rezoning request will be made by the Town Board per the requirements of the Zoning Ordinance.

**NOTE:** Please check with the Planning Department to determine the deadline dates for filing applications. Because of the public hearing notice and departmental reviews, no zoning change application will be placed on the Planning Board agenda after the deadline for filing has closed.

RE: ERIE SEWER DISTRICT NO. 5 - COMMERCIAL/INDUSTRIAL  
NEW AND EXISTING BUILDINGS

Attached is a copy of the letter from ECSD #5 regarding the above subject. This would apply to all site plan reviews and construction which might occur on the Amherst side of ECSD #5.

The essence of their request is to make sure that petitioners apply as early as possible (earliest rezoning stage), but certainly as early as the site plan review stage, to the Erie County's Division of Sewerage Management (DSM). By submitting building and plumbing plans early in the review process to the County (DSM), petitioners will not be denied nor delayed in seeking access while current reviews are being held.

If you review any rezonings and site plans for those areas along Transit Road within ECSD #5, petitioners should be advised that early submittal (of building and plumbing plans) to the DSM is necessary.

RE: Erie County Sewer District No. 5  
Commercial/Industrial New and Existing Building  
Construction and Change in Existing Establishments

Honorable Town Board:

This letter is written to remind you that any new commercial and/or industrial buildings or a change in use of an existing building within your service area requires the submittal of an Industrial Waste Survey (IWS), complete with detailed plans, to Erie County's Division of Sewerage Management (DSM) for review and approval.

Your community, as a member of the Erie County Sewer District No. 5 (ECSD #5), is required to participate in the District's EPA Approved Pretreatment Program. This program, mandated under federal law, requires review and inventory of all new non-residential facilities in the service area to determine if they fall under the pretreatment program. This review will also determine if the new facilities require an Industrial Wastewater Discharge Permit. Furthermore, as part of ECSD #5, your community must comply with The Rules and Regulations for Erie County Sewer Districts. These Rules and Regulations include additional requirements for non-residential facilities connecting to the sanitary sewer within the service area. The review of the plans for new facilities will insure compliance.

While there has not been a problem with new buildings incorporating new sewer connections, it is becoming more of a problem with existing commercial establishments that have changed ownership, expanded, and/or been renovated for a different use, without any review by the DSM. This includes such projects as:  
(a) where a building is demolished and a new facility is built at

the same location; and (b) establishments that change their use such as a store turned into a bakery or a gas station turned into a restaurant.

A specific problem that tends to reoccur is the question of grease traps. The District requires all food serving establishments to have exterior grease traps installed. Some Towns only require the under the sink traps. However, the District has found them to be generally inadequate in most situations.

The District suggests that in the future, completion of the Industrial Waste Survey and review of plans be done by the DSM prior to approval and issuance of building permits for non-residential buildings. Currently, there is no fee required by the DSM for this review. The review is vital for the District's Industrial Waste section to maintain the proper inventory of non-residential facilities in the service area pursuant to federal regulations. Failure to do so could result in substantial costs to property owners to bring their facilities into compliance if construction occurs prior to plan approval.

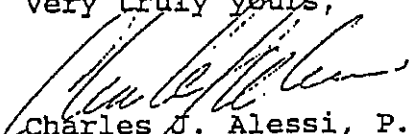

In a related matter, it is extremely important that where existing sewer laterals are not being reused, they are properly capped and sealed. It has been our experience that if the old sewers are not properly capped, it allows excessive inflow and infiltration into the sewers and unwanted debris. This can cause problems such as unnecessary surcharging and/or plugging of sewers and flooded basements or the undermining of paved areas such as sidewalks, roads and parking areas. Proper capping of sanitary sewer laterals is also required under the District's Rules and Regulations. If the existing sewer laterals are to be reused by a new building, they need to be inspected and tested to see that they are still structurally sound.

It is the District's hope that by working in a cooperative manner, the integrity of the entire sewerage system will ultimately improve, thereby reducing inflow and infiltration, and thus saving money for both your community and the District.
