Jeffrey Burroughs, PE  
Town Engineer  
Town of Amherst  
1100 North Forest Road  
Williamsville, NY 14221

**Re: Multi-Family Project - 480 Dodge Road  
Compliance Letter - Inflow and Infiltration Reduction Program**

Dear Mr. Burroughs:

This compliance letter is being submitted by The Green Organization, project sponsor for the proposed multi-family project at 480 Dodge Road in Getzville, New York.

The Project Sponsor agrees to comply with the Town of Amherst's I/I mitigation-offset requirements for the wastewater flow from the proposed development.

Wastewater flow from the proposed development was generated as follows:

$26,840 \text{ gpd} * 4.10 = 110,008 \text{ gpd} / 1440 = 76.39 \text{ gpm} * 4 = 305.58 \text{ gpm}$

Based on the Town's requirement of \$250 /gpm x 305.58 gpm = \$76,394.58 the Project Sponsor's financial contribution of the Town's "Trust in Agency" fund.

The Project Sponsor also agrees to make this contribution prior to acceptance of the PIP's.

**Agreed and Accepted:**
